

OCTOBER 2013

This is the sixth newsletter of POLARIS. In this newsletter, we present you the flowchart of the study inclusion, the protocol paper, and the collaborators meeting.

Protocol paper

We can proudly announce that our protocol paper has been published in Systematic Reviews. You can find the article on the following link: www.systematicreviewsjournal.com/content/2/4/75.

FIGURE 1: FLOW CHART OF STUDY SELECTION

In this edition:

- Protocol paper
- Flow chart study inclusion
- Collaborators meeting

Study inclusion POLARIS

We present you the flow chart of the study inclusion for POLARIS (Figure 1). To date, we have 63 studies of which the principle investigators are able to share the data with POLARIS. Of the studies currently available (i.e. completed studies), 30 studies are physical activity interventions, 19 are psychosocial interventions and 2 studies are multimodal interventions combining exercise and social support.

Collaborators meeting

We have scheduled a collaborators meeting on July 8th 2014 in Amsterdam, where we will present the preliminary results of the first analyses. During the collaborators meeting we will also discuss future analyses, and discuss involvement of consortium members as main authors in papers. An invitation for this collaborators meeting and all necessary information will be send to you. We hope that all POLARIS consortium members will be able to join us in Amsterdam.
